SUMMARY

Junior Unity Developer with a Bachelor's degree in Information Technology and hands-on experience shipping a complete mobile game from concept to Google Play publication. Solo-developed and published "The Hunted," a roguelite survival action game, achieving a 300% performance improvement (13-20 FPS to 50-60 FPS) on low-end devices through code optimization and asset management. Skilled in Unity, C#, and integrating Firebase, Google Play Services, AdMob, and Google Play Billing. Also brings Agile project coordination, UI/UX, and multimedia production experience. Seeking a Junior Unity Developer, Game Developer, or Gameplay Programmer role.

TECHNICAL SKILLS

Game Development: Unity Engine, C#, Gameplay Programming, Mobile Game Optimization, Sprite Atlas

Google & Backend Services: Google Play Console, Google Play Games Services, Google Play Billing, Google AdMob, Firebase

Programming Languages: C#, HTML, CSS, Basic JavaScript

Version Control: Git, GitHub, Unity Version Control (Plastic SCM)

Multimedia & Design: Adobe Premiere Pro, Adobe Photoshop, Adobe After Effects, Blender, LibreSprite, Canva

Project Management: Agile Methodology, Scrum, Sprint Planning, ClickUp, Project Coordination

Other: UI/UX Design, Web Design, Computer Troubleshooting, Basic Networking

PROJECTS

The Hunted — Roguelite Survival Action Game

Published on Google Play

Solo Developer | play.google.com/store/apps/details?id=com.pixelnightproductions.thehunted

- Designed and developed the complete game using Unity and C#, from concept to Google Play Store publication
- Integrated Google Play Games Services (leaderboards, achievements), Firebase (cloud save), and Google Play Billing (in-app purchases)
- Implemented Google AdMob rewarded advertisements for monetization
- Achieved a 300% performance improvement on low-end devices, raising FPS from 13-20 to 50-60, by optimizing code and implementing Sprite Atlas asset management
- Built inventory, progression, and upgrade systems to enhance player engagement and retention
- Designed unique beast characters with distinct weapons, abilities, and ultimate skills
- Managed version control using Unity Version Control (Plastic SCM) and Git; published and maintained production builds

From Nowhere — Psychological Horror Game (Capstone Project)

Game Designer / Programmer | *Team of 3*

- Programmed core gameplay systems and mechanics for a narrative-driven horror capstone project
- Contributed to game design and puzzle/level structure
- Collaborated with a 3D artist and writer to integrate assets and story into the game
- Tested and debugged gameplay throughout development

EXPERIENCE

MarTech Consultant | Project Coordinator

Oct 2025 – Present

Precoce Technologies

- Supported Agile project planning and coordination using ClickUp, ensuring smooth workflows and timely delivery of digital solutions
- Assisted executive leadership with scheduling, meeting coordination, documentation, and project tracking
- Collaborated with cross-functional teams to design and deliver websites, presentations, infographics, and marketing assets
- Helped improve internal workflows and documentation processes, increasing team efficiency
- Supported software and product initiatives through technical collaboration and design expertise

Student Trainee — Graphics Designer | Video Editor

Precoce Technologies | Nov 2025

- Designed and executed a comprehensive social media campaign for the company, increasing online presence and engagement
- Produced a promotional video for the BSIT course at Fellowship Baptist College, published by the school to attract prospective students
- Edited a promotional video for a top financial agency client, published on their website and YouTube channel
- Designed infographics, presentation materials, and visual assets for client projects, ensuring brand consistency
- Contributed to UI/UX design for client websites and applications, focusing on user-centered design principles
- Facilitated Agile development as Scrum Master, leading sprint planning, daily stand-ups, reviews, and retrospectives
- Coordinated project workflows using ClickUp, maintaining documentation and organizing development tasks
- Collaborated with developers and designers to deliver client projects on schedule
